DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- a) In the specification, page 3, above paragraph [0016], insert the heading "Summary Of The Invention" in order to separate what is admitted prior art and the applicants' invention.
- b) In FIG. 1 of the drawing insert the words "PRIOR ART" below the page.

Allowable Subject Matter

2. Claims 1-12 are allowed over the prior art.
3. The following is an examiner's statement of reasons for allowance: regarding claim 1, the reason for the allowance of the claim was presented in the Office Action mailed on July 1, 2005, on page 4. Since claims 2-7 depend from claim 1, they also have allowable subject matter.

Regarding claim 8, the primary reason for the allowance of the claim is due to the improvement of the admitted prior art by including calculating the dissipation factor of the MOS transistor during the method steps of determining a gate capacitance of the MOS transistor. Since claims 9-12 depend from claim 8, they also have allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
